PRECEPTORSHIP

Best practices in Supportive Care

A highly interactive post-graduate educational program for pediatric oncology

June 18 & 19, 2026

Utrecht, The Netherlands

Do you want to improve the outcome of your patients? Join the interactive Preceptorship meeting and interact with leading international experts.

The number of participants is limited! This Preceptorship is a highly practical and interactive live forum. It provides a unique opportunity for (pediatric) oncologists and hematologists (whether or not in training) or other experts in the field to interact with leading Dutch and international faculty in order to increase clinical knowledge, apply new data to practice, and ultimately improve patient outcomes.

Main topics will focus on prevention and treatment of infections, critical care, nutritional support, comfort care (including palliative care) and late effects.

*Application has been made to the EACCME for CME accreditation.

For more information and the program turn this page or scan the QR-code.

Program

Session I: Prevention and treatment of infections

- Blood stream infections
- Fungal infections
- Infection prevention
- Antibiotic and antifungal prophylaxis

Session II: Prevention and treatment of other acute effects

- Nausea, vomiting
- Nutritional support and physical activity
- Pain management
- Palliative care

Session III: Prevention and treatment of acute or long-term effects

- Chronic fatigue and sleep problems
- Critical care
- Fertility
- Development and implementation of guidelines

Set-up Each session will last 4 hours hosted by faculty members who will rotate every hour between the 4 subgroups. Because of this we create a unique and intensive interaction between the participants and the experts that is only available for onsite participation.

Selection criteria High-potentials actively involved or interested in Supportive Care (pediatric oncologists and hematologists (whether or not in training), and other experts in the field).

Fee € 395 early bird (till February 18), including social program
€ 495 full fare (from February 18), including social program

Registration Until May 28, 2026

Local Organizing Committee Prof.dr. Wim Tissing, Dr. Wouter Kollen, Dr. Lenneke Schrier, Prof.dr. Gertjan Kaspers
